Media Player Classic - Home Cinema Portable [Win/Mac]

Media Player Classic - Home Cinema Portable is a lightweight video player that will get the job done. Up to six videos are displayed on a single window (it supports multi-layering). The interface is intuitive: The toolbar with the built-in controls is located at the top of the window, while the area where the preview is displayed is the bottom left of the window. The left and right mouse buttons control playback. All of the options for changing playback are very well displayed and can be accessed via the on-screen context menu. The video and audio quality are good and the available codecs are comprehensive. It is fast and playable. (Microsoft Windows 7 and above). It's lightweight, easy to use, and it's possible to access options from the context menu. Download Media Player Classic - Home Cinema Portable Installation and uninstalling Ease of use Installation and uninstalling Assembly Performance Usability Design Features Windows Very nice Easy to use and understand. The size of the program was as expected. The instructions for the installation process were a little confusing though. However, the program itself was very easy to work with. Very clean and quick loading. No issues while installing and running. Easy to install and easy to use. The other options can be used easily. I do recommend the customizability options, that is, the ability to customize the color of the text, background and border. Very clean and easy to use. Ease of use Design Very clean Reasonable size Usability Assembly In addition to the beautiful design of the program, it has a very intuitive interface. When I want to perform an action, I press the appropriate button and the context menu appears. Unfortunately, it appears that I can't save customizations, but I may be mistaken. The program works very easily and everything is very intuitive. It has a great interface. The program comes with a bunch of presets for the most common audio file formats and is very easy to use
