

well I can't join any game (multiplayer game), I get to the lobby easy and simple, BUT in the end, the players press the "done" button, NOTHING happens, the game doesn't happen... I'm not sure how to prevent this, I don't play a multiplayer game, I'm just a casual player, I just want this to happen. What is the reason for this? Am I setting something wrong? How can I fix this? (I am using Windows 7 You can delete your profile and create it again. When you do this, you can choose whether you want your previous profile (the one you deleted) to sync with the previous connection, or you can only sync the new profile.
