This book analyzes the main aspects of women's fashion design. The prospects for the development of a women's costume, colors, proportions of the figure are discussed. The styles of eight world cultures are described. Each chapter opens a new question and offers a clue. The book deals with the Mona Lisa phenomenon for the first time in art history. According to legend, the great artist painted a face from nature, and it is known to us from portraits. Modern science proves that this is not a portrait, but a self-portrait. The reader will learn the history of the creation of the Mona Lisa, restore the ingenious secret passage that led Leonardo to the masterpiece, and find an explanation for the mysterious name of the famous painting. "How to become happy" in the publishing house "New school" The book of the famous psychologist and teacher L.A. Tsvetkova is dedicated to one of the most dramatic pages in a person's life - the loss of love. Why does a person lose love, on what grounds can one speak of love for a mother, if pain and confusion are always associated with his first love? The author reveals the nature of love, that feeling that gives every person the opportunity to exist in harmony with the world and with himself. How to become happy? Sooner or later, we face this question. And each person, as a rule, is looking for answers to it, guided by his own wisdom, experience, intuition ... Or maybe we are talking about generalizing the experience of people who had extrasensory abilities? Then the book "Mental Magic" is of interest to everyone who wants to learn how to manage their own destiny and help their child, and maybe even themselves. Psychological help in business. Norm as a way of control. Business psychology is a new profession. However, the number of successful business people who lead their companies is increasing because it is so easy to be efficient, think positively and get on with the business life. Is it easy to be generous? This topical issue is the subject of a book by a psychologist, candidate of psychological sciences Vladimir E. Bury. The value of the book is that the psychologist offers readers his own conclusions, proves them with logic and provides convincing evidence in favor of his position. The book is illustrated with hundreds of excerpts from authoritative sources, which clearly trace the basic principles of business management. The new book of the spouses Pavel and Lyudmila Lopatin contains practical advice on building relationships with loved ones in the family and at work, gives practical recommendations on which of them should be taken into account when building harmonious relationships.
