Html2Php Magic is an easy to use and powerful utility that allows you to convert any HTML into PHP or ASP document within a few clicks. Simply fill in the blanks and hit the "Generate Code". Voila! You'll get what you want in seconds. Not days. Not hours.

Not even minutes!
Now you can say
GOODBYE to long
hours of manually
converting your
HTML to PHP or ASP
documents and doing
many web designer
tasks as you or your
clients want! Easy and
precise conversion of
HTML documents to
PHP or ASP
document. User-
friendly interface and

fast conversion.

Supports almost all web browsers.

Supports almost all file formats. Convert selected HTML document or selected page within that document. Copy the document to a new location. Zoom in/out HTML and convert it to PHP/ASP with an easy click. Fully supports IE 4.0 - 9.

Support international users' characters and languages. Supports Unicode.

Automatically detect non-ASCII characters.

Converts HTML to PHP or ASP document fast. What's New in
