What's new in Fifa 22:

- **Live Your Career in FIFA 22! A true-to-life recreation of a football match gives you a chance to live out both your manager and football pro career dreams as you play along side your favourite players in a truly authentic football experience. With a deeper player progression system including dynamic player techniques, three divisional ladders, the fully licensed Journey covers, and many other new features, FIFA 22 is set to be the biggest update to the sport yet.**
- **FIFA 22 animation updates FIFA has also invested significant time into making sure every player and object on the pitch truly looks like it does in real life. When a player goes into a tackle and hits a player in the air, it looks and feels like a real contact sport.**

PROS & CONS Pros -Play like never before with the most authentic recreation of the game yet. The FIFA VR 5 series development team and serious football clubs in England took a long period of research and design to create this fidelity.

- **NEW SINGLE PLAYER CAMO Bring your skills to the pitch on custom teams and experience an even more immersive game. Bring together your favourite players and recreate iconic tournaments like the 2014 World Cup Final. You won't have an easier time finding a perfect, authentic looking kit for your team - it'll be hard to beat the FIFA Street 3 team kit the Brazilian National Team wore.**
- **REWORKED WORLD WIDE EXCLUSIVE TOURNAMENT For the first time, new tournaments with thousands of teams and 30,000-plus athletes are now available to play on FIFA Ultimate Team. Become the World Cup Champion, 2015 Ballon d'Or winner Cristiano Ronaldo, or David Alaba in FIFA 20's new Concerta World tournament. Some of the most physically demanding clubs compete in the brand new five-a-side Copa FIFA Verde. New clubs like Manchester United, Arsenal, and Bayern Munich handle the ball at incredible speeds, but there's still no better way to experience the heart and soul of the sport than on custom football teams in the FIFA Street 3 development team's tournament.**

FIFA (from FIFA, meaning football in the English language) is the world's most popular soccer video game franchise. FIFA is the industry leader that delivers the most authentic football experience. Most recently, the series has developed into an unparalleled entertainment brand, featuring more live events than any other sports videogame. How FIFA Develops At EA we have continued to evolve FIFA so that it can be played at the highest level. A FIFA game is a world-class football game which, by its nature, is constantly evolving. We have a structured methodology for creating and iterating on our games, and take an open, iterative approach to development. Our design, art, testing and QA teams are all unified to create a cohesive flow within the entire development process. PRODUCT OVERVIEW FIFA Soccer 20 FEATURES & TECHNOLOGIES A Brand New World FIFA Soccer 20 will take players to new heights and give players the ability to physically feel the rush of the world's best players. It allows for more realistic ball physics, new movement types and improved ball flight. Playmaker challenges have also been enhanced with new game modes and challenges. Combined with FIFA 20's improved ability to keep players connected, these changes come together to create the closest depiction of the real world. FIFA 20 DELIVERS Powered by Football: EA SPORTS has created a new approach to playing the game which will enhance the live experience. It's Live, It's Real - In FIFA 20, online gameplay replicates the experience of being in a live stadium environment. Gameplay will be more realistic, with more authentic environments, goalkeepers and crowd sounds. Players can also communicate with fans and other players, earn leaderboard points and pay for virtual items. Ground Control, The World's Fastest Club - FIFA 20 introduces physically-based graphics, which gives players a more detailed view of the soccer action. The new graphics engine also allows for stadiums and stadiums to be fully animated on-screen. FIFA 20 will include an innovative Community Choice Engine, which allows fans to choose what goes into the game. New features include improved goal celebrations, captaincy, ability to create players, higher number of leagues and more. New Training Mode - Play through the training process and use your new skills in new game modes with the new Training Mode. There are no goals and no games, just endless fun in what
