A: From this thread: On 7th March 2009, KoolAid2000 reported to us on 6th March 2009, that the file is available for free download at links offered on the same page of this form. It is more than 4 years old by now. However, the required licence can be obtained here for free. Q: Run a binary executable via Java - via the shell Is there a way to run a binary executable via JAVA? What I mean is, if I want to run a binary executable inside my JAVA code without having to compile it first, is there a solution for this? A: You can execute external processes using `Runtime.getRuntime().exec()` or any other `ProcessBuilder` class method. // Runs program-name from command-line.  
`Process p = Runtime.getRuntime().exec(commandline); // Starts shell, runs program-name, then exits. Process p = Runtime.getRuntime().exec(commandline, null, null);` This should help you. Please let me know if you need further information. The predictive value of ultrasound in blunt pelvic fracture: a retrospective study. Pelvic fracture may
